THE BELLS BENEATH BRACKENFORD

Karma | Session 3

Forest shrine. Saint Orra.

Ysabet Rusk lives there. Former cult member. Seems sad.

She knows about the Gloam Engine. Sounds like a machine and a weather condition combined.

Apparently the machine opens a door to the Shadowfell.

Wolves made of shadows attacked.

I made one cultist drop his sword. He looked very surprised.

Ysabet said we need a brass astrolabe.

[Drawing: Wolf. It has too many legs.]
