THE BELLS BENEATH BRACKENFORD

Faelan Haversham | Session 6

Beneath the Bellfoundry

Entered via the old sluice passage. Mera's key remains useful.

Found several prisoners, including two missing bell-ringers.

Cultists were preparing a ritual around a large stone bell.

Captured Pell.

He confirmed that Magister Othric Vale is attempting to activate the Gloam Engine.

The Brass Astrolabe is necessary to align the mechanism.

The bell's resonance weakens the seals.

Important revelation: Pell claims that the ritual must be completed during an eclipse.

Othric appeared via a magical projection.

He recognised Kael and made a reference to "the wizard's work".

Possible knowledge of Eldrin Valtoris.

This suggests that Eldrin's research and the Ashen Choir's activities may be connected.
