THE BELLS BENEATH BRACKENFORD

Karma | Session 1

BRACKENFORD!!!

Very grey. Very damp. Very many suspicious people.

Inn: Tallow & Thorn. Bram Tallow. He has one less ear than expected.

Warden Elira hired us to investigate missing bell ringers.

THE BELL RINGS BY ITSELF.

Bell tower has blue wax and weird scratches. Found dead people downstairs. Not the fun kind.

They were VERY wet.

Kael's Echo was doing the thing again. It looks like a smoky Kael. I wonder if it has its own opinions.

[Drawing: A bell with little angry legs.]

Found token with three waves.

Why three?
