THE BELLS BENEATH BRACKENFORD

Niko Nightstriker | Session 1

Brackenford

Town smells of wet stone and smoke.

Elira Thorne hired us. Three missing bell-ringers. Bell tower rings at night without anyone touching it.

Bram Tallow — innkeeper. Afraid of the tower. Knows more than he says.

Tower:

- Blue wax.
- Scratches inside bell housing.
- Drowned dead beneath stairs.
- One had blue light in chest.

Kael's Echo can attack independently. Useful.

Token recovered. Three waves.

Someone is bringing the dead back.
