THE BELLS BENEATH BRACKENFORD

Faelan Haversham | Session 3

Greyfen Wood

Ruined shrine dedicated to Saint Orra.

Met Ysabet Rusk. Former member of the Ashen Choir.

She provided a useful overview of the organisation.

The Choir seeks to activate something called the Gloam Engine, supposedly located beneath Brackenford.

The mechanism is capable of weakening the boundary between the Material Plane and Shadowfell.

She mentioned the Brass Astrolabe, which appears to be a necessary component.

Important: Ysabet seems knowledgeable about the magical practices of the Choir but avoids discussing her own involvement.

Combat with shadow wolves.

Their bodies were partially insubstantial. Their wounds closed slowly, although not completely.

Possible relationship to Shadowfell exposure.
