THE BELLS BENEATH BRACKENFORD

Faelan Haversham | Session 4

The Drowned Archive

Sister Anwen's records confirmed that Brackenford was built over an older temple complex.

The original temple was dedicated to Saint Orra.

Met Veyra Quill, who provided directions to the Drowned Archive.

Recovered the Brass Astrolabe.

The archive contains references to:

- Three seals.
- Resonance-based magic.
- A large bell used as a magical focus.
- An ancient mechanism below the reservoir.

Personal research: Niko asked Sister Anwen about vampirism.

She mentioned a possible treatment requiring the voluntary rejection of a vampire master's influence.

This is potentially important. It implies that vampirism may involve a magical bond that can be broken through conscious rejection.

Further investigation required.

Combat against animated dead and an armour construct.
