THE BELLS BENEATH BRACKENFORD

Karma | Session 4

Drowned Archive!!

Water. Books. Skeletons. Lovely.

Veyra Quill took us there. Smuggler. Pretty coat. Expensive directions. 20 gold.

Sister Anwen had some interesting books about vampires. Niko was reading them very intensely.

Found a brass astrolabe in a locked room.

There was a picture of a bell and a dark hole underneath it.

Also found an old crystal with smoke inside. It whispered? Or maybe I imagined it.

A floating suit of armour attacked us. Very rude.
