THE BELLS BENEATH BRACKENFORD

Faelan Haversham | Session 2

The Old Sluice Network

Met Mera Venn, municipal locksmith.

Her nephew Jory was missing. Found him in the sewer system.

Mera provided an iron key bearing the three-wave symbol. Opens the old sluice gate and grants access to the lower sewer network.

This is significant. The town's drainage infrastructure appears to predate its current construction.

The newer sewer passages were built around older stone chambers.

Ashen Choir

Cultists found underground. Their markings match the symbol recovered from the bell tower.

Jory confirmed that the cultists had been taking people through the tunnels.

Combat involved several humanoid cultists and two mud/bone constructs.

One cultist escaped.

Research question: Why are the Choir using drowned corpses? Is this an attempt to preserve vessels for some later ritual?
