THE BELLS BENEATH BRACKENFORD

Karma | Session 5

STARFALL SPIRE.

Amazing tower. Stars painted on ceiling. Giant magical telescope.

Found wizard documents. Eldrin Valtoris. Kael got very quiet.

Something about magic staying in the body after healing.

So maybe Kael is magical soup?

Found a shadow moth. BEAUTIFUL. It had wings like little pieces of night.

Tried to touch it. Disappeared.

Faelan found blood magic notes and became very interested.

Idris made a lens work and suddenly there was a map on the ceiling.

Three places:

- Bellfoundry.
- River.
- Reservoir.

The metal people attacked.

[Drawing: Very bad drawing of an animated suit of armour.]
