THE BELLS BENEATH BRACKENFORD

Niko Nightstriker | Session 8

Reservoir

Gloam Engine chamber.

Othric had the astrolabe in the mechanism.

Black crystal. Rings rotating around it. Shadowfell breach.

Creatures emerged through breach. Smelled like old graves.

Othric used magic that seemed to distort distance.

Niko initiative? Didn't write it down.

Got astrolabe free.

Engine destabilised. Othric disappeared through breach.

Escaped through western passage as reservoir flooded.

Brackenford saved.

No cure yet.

Remember: Eldrin. Othric. Ashen Choir. Cure formula incomplete. Don't trust Ysabet entirely.
